I have been successful during scrutiny and been eligible for Tenure Track System (TTS). However, there are two discrepancies in the evaluation of application. These are as follows: I completed the graduation (BS-Environmental Sciences) from Hazara University Mansehra in 2012; where, I have been awarded with "Gold Medal" in convocation held in May 2013. However, distinction marks are not included in my obtained marks during scrutiny. I was a member of the project won by my PhD Supervisor (as PI) from "National Natural Science Foundation of China" of worth RMB 768000.0. However, distinction marks have not been included in obtained marks during scrutiny. Moreover, I have post-PhD research experience of more than one year (14 months and 10 days) now. However, at the time of submission of application, it was less than 1 year (11 months). The "experience marks" could be more than I have obtained during scrutiny process. In light of above facts, I humbly request you to revise the decision and include these marks in obtained marks during scrutiny and quantification. The certificates have been attached as a proof with this application.	Eligible	1. 5 marks granted for distinction by provision of merit certificate. 2. Post-Doc experiece can only be granted on its completion subject to provision of certificate (tranlated version in English language) clearly mentioning the duration of the experience. 3.
